3. Select the operating system on which Stata is to be installed.

4. Click on **SetupStata19.exe** or **SetupStataNow19.exe** and start the installation.

**STATA**<sup>®</sup>

5. Confirm in the dialog box with "Yes".

## Before you start the installation

1. Make sure that you have a **license** and an **activation key**. These are required for the installation.
2. Use the license and activation key to determine whether you should install Stata/MP, Stata/SE or Stata/BE. If you have StataNow, you may see StataNow/MP, StataNow/SE or StataNow/BE. It is important that you distinguish between MP, SE and BE.

### License and Activation Key

Stata Software

This License and Activation Key is an *important* document. Three pieces of information on this document — the serial number, code, and authorization — will be required during the installation process of the software you have licensed from StataCorp LLC (“StataCorp”), as further described below.

This document is valuable proof of purchase for your software license. You should store this document in a safe place for record keeping.

Licensed software:	StataNow/MP 19.5 (4 cores)	←	Make sure you install the same edition of Stata that is shown on your license!
