DOWNLOAD STATA INSTALLATION

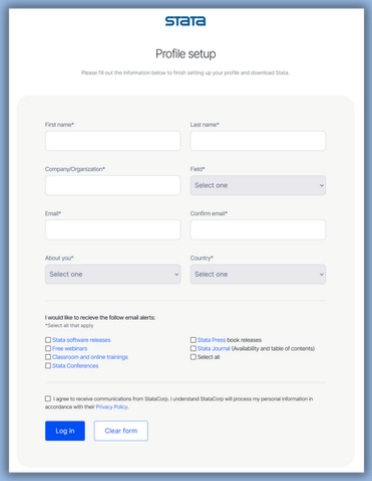

1. Open the **Stata download page**.

The following screen appears. Enter your username, password, and serial number in the input fields. You received this information in your email from StataCorp.

Download the installation

2. On the next screen, enter your information.

3. On the next screen, select your operating system.

4. Click **SetupStata19.exe** or **SetupStataNow19.exe** to download the installation program. The download page automatically displays the installation program that corresponds to your license.

5. Once the disk image has finished downloading, open your Downloads folder and double-click the disk image.

6. Double-click **Install Stata** or **Install StataNow**.
